

Master of Public Administration in European Studies (MPA-ES)

The interdisciplinary MPA-ES centers around the fields of energy, transport, climate and digitalization from a political and technological perspective. Learn to link current trends in technology with policy fields at the EU level and develop solution for European and global challenges.

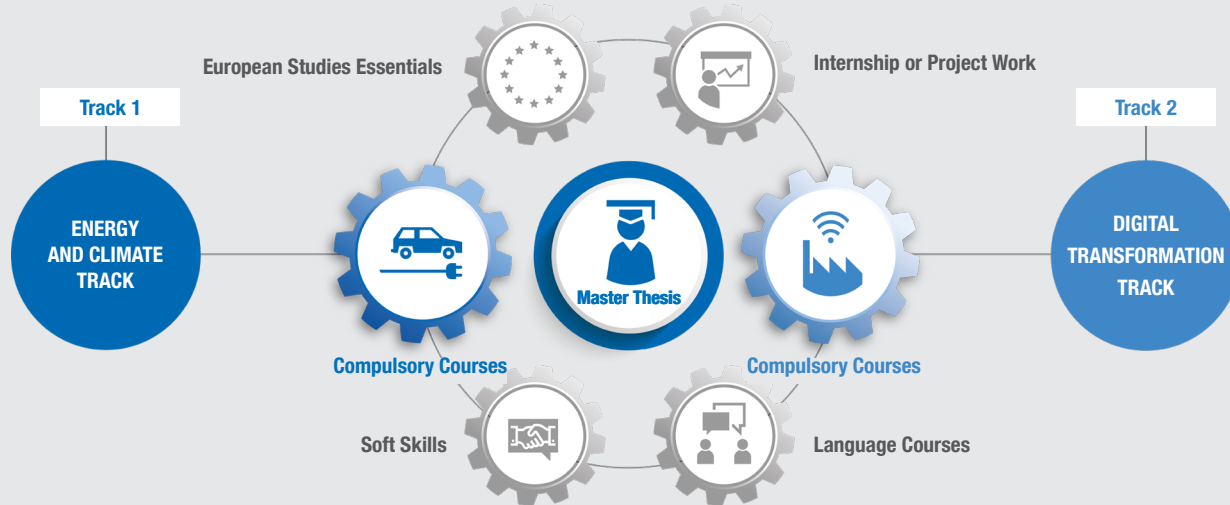

As an MPA-ES student, you will learn to:

- ▶ analyze current and future global challenges and their impact on European Union politics and policies
- ▶ think strategically about the mechanisms of European policy-making within the framework of EU and nation state interaction
- ▶ utilize qualitative and quantitative methods of decision making and risk management
- ▶ apply tools and measures for a data-based management of organizations
