Prepare yourself for your engineering M.Sc. degree program with RWTH International Academy. Get a head start and fulfill your academic requirements with this thorough preparation. Close any knowledge gaps and benefit from a smooth transition into your successful Master’s studies!

As a participant in the Master's Prep Courses you can

- fulfill academic requirements directly at the beginning of your studies
- refresh, deepen, and update your technical and mathematical knowledge
- get accustomed to RWTH Aachen University’s learning and teaching standard

Excellent preparation for your Master's program:

- Important foundation in engineering and mathematics
- High-quality live lectures and interactive exercises
- Numerous, flexible learning materials

Mechanics III
2 week course

Mathematics III
4 week course

Machine Design II
2 week course

Preparatory courses
Online format
Condition: admission to M.Sc. program
EUR 750.00 per engineering preparatory course
English-taught
Registration deadline: May 30 (Non-EU) | July 30 (EU)

Planned wisely and executed even better. The lecturers explained till the depth and completely made my understanding of the concepts very clear.
