Ready, study, go
We help you get off to a good start in Germany
Welcome

We’re Germany’s largest health insurance fund and many people you ask here in Germany will also say that we’re the best one. Give us a try. Why? Because you can only attend university in Germany if you have health insurance. And if you aren’t from an EU country, then it has to be with a German health insurance provider – but not just any one.

Perfect German organisation – in English too of course

As the name “Techniker Krankenkasse” indicates, we used to be the health insurance fund for German engineers and technicians. You’ll still notice that today to a slight extent, even though we have long been open for anyone to join us. For example, one of our priorities has always been that everything is run perfectly and accurately.

- Needless to say, we provide assistance with English-speaking staff.
- You’ll find us right on campus where we can help you fill out a number of forms.

- We’ll find suitable doctors for you and arrange appointments straight away.
- You’ll get the right answers from us immediately to any questions you may have about health insurance in Germany and Europe. For example, if you’re starting work here or going travelling.

It’s always a nuisance when you fall ill, but if you do, it’s good to be with TK

If you do have to go to the doctor at any time, all you’ll need to do is show your TK eHealth card and we’ll take care of everything else, settling the doctor’s bill for instance. And we offer a whole lot more that not only helps you to get better but also to stay that way. For example:

- travel vaccinations
- skin cancer screening
- medical examinations for sports

It’s as simple as this

Use this card to get in touch with us fast. Just fill out, tear off and send to us. Then we’ll contact you as quickly as possible. Or contact us directly using the details overleaf.

We look forward to hearing from you!
