“High Potential Scholarship” for EU Applicants

Preamble

This scholarship is intended to support highly qualified engineering students from the European Union in pursuing a Master’s degree program at RWTH Aachen University, offered by RWTH International Academy. This scholarship grants a 25-50% of reduction of the tuition fees charged by RWTH International Academy.

This scholarship applies to admitted students of RWTH Aachen University in one of the following Master’s degree programs:
- M.Sc. Management and Engineering in Structural Engineering and Risk Management of Industrial Facilities,
- M.Sc. Robotic Systems Engineering,

§ 1 Principles
The scholarship may/can cover up to 50% of the tuition fees for the respective Master’s degree program (within the regular study duration) resulting in a reduction of up to 11,000 EUR of the program’s tuition fees.

§ 2 Requirements
Students must be admitted to the above-mentioned Master’s degree program, and have performed excellently in their bachelor studies. Students who already receive funding or scholarship for the required tuition fees, are not eligible.

§ 3 Registration Process and Application Deadline
Scholarship applications must be turned in with the regular Master’s degree program application and uploaded onto the RWTHOnline application portal. The application deadline for the scholarship is 31 May of every year (even though the application deadline for EU applicants for the regular program is 15 July of every year). The required documents are:

- Letter of intent for the scholarship (not more than one page)
- CV

In the letter of intent, please answer the following questions in detail:

Why did you choose the respective Master’s degree program?
What is your motivation to apply for the High Potential Scholarship?

Please upload your letter of intent and CV in one pdf onto the RWTHOnline application portal together with your application in the field for “Other proof of performance/ assessments” by 31 May.

§ 4 Escape Clause
The awarding of this scholarship is dependent on the availability of resources of RWTH International Academy’s student fund. There is no legal basis for students to claim this scholarship.

Aachen, 02 May 2019
